Tenure Track - Assistant Professor – Information Technology Management Faculty

**Position Category:** Faculty - Tenure Track (FT)

**Summary:**
CMU is seeking an Information Technology Management Tenure Track Assistant Professor to teach in the new Information Technology Management program. This position primarily teaches graduate technology management courses and assists with curriculum development and assessment. Requires the willingness and ability to teach courses online, as well as designing and teaching courses with engaging methods.

**Required Qualifications:**
This person should hold a PhD in Information Technology, Management, Business, or a related field. Must have extensive work experience or related educational experience in field of technology or technology management as well.

Candidates should also possess:

- Evidence of potential for effective teaching in line with the mission of the institution.
- Evidence of potential for effective scholarship in line with the mission of the institution.
- Evidence of potential for effective service in line with the mission of the institution.
- Knowledge and skills in current theories, strategies, and techniques in technology management or a related field engineering management.

**Knowledge, Skills and Abilities:**

- Knowledge of subject matter and curriculum development, including online teaching in the areas of: project management, engineering management, and/or technology management.
- Knowledge of teaching through implementation of appropriate pedagogy, clear presentation, and preparation.
- Ability to implement instructional strategies and techniques to effectively teach course content.
- Knowledge of student management, motivation, and evaluation.
- Knowledge of development and assessment of curriculum.
- Ability to supervise research projects.
- Ability to work with the opportunities and challenges of a rapidly growing and dynamic institution.
- Ability to work with a diverse mix of other individuals, programs, departments, and industry professionals.
- Ability to follow written and verbal procedures and instructions.
- Ability to communicate verbally and in writing.
• Ability to function effectively on a variety of committees and assignments that serve the needs of the University.
• Skills in maintaining professional and ethical academic standards.
• Skills in interpersonal interactions, problem solving, and decision-making.
